Create a Simple Cloud Software Application for Product Selling Using Any Cloud Service Provider to Demonstrate SaaS

Aim

To develop a simple cloud-based Product Selling System using Zoho Creator, demonstrating the Software as a Service (SaaS) cloud model for managing product information and automatically calculating the total selling amount.

Procedure

1. Log in to Zoho Creator.
2. Create a new application named **Product Selling**.
3. Create a form and add the following fields:
 - Product Name
 - Product Price
 - Quantity
 - Total Amount
4. Configure **Total Amount** as the output field.
5. Add a Deluge script to calculate:

Total Amount = Product Price × Quantity

6. Save the application.
7. Run the application in the cloud.
8. Enter product details.
9. The application automatically calculates the total selling amount.
10. Verify the output and save the record.
